THE SMARTER WAY TO CHARGE YOUR EV.

Using inductive power transfer technology, Plugless L2 efficiently and safely charges your EV. It works just as fast as level 2 plug-in stations without the hassle of cables. And since Plugless starts charging automatically whenever you park over the system—even for a few minutes—your EV gets more frequent charges, which can help extend the life of your battery.

Plugless L2 is the first inductive charging system on the market, and it’s been thoroughly tested by companies like Google, Hertz and Duke Energy.

HANDS-FREE, HASSLE-FREE.

With the Plugless L2 System, you simply pull into your parking space and your EV starts charging automatically. No dirty cords to untangle and no chance of forgetting to charge. The wall-mounted Control Panel guides you as you approach the Parking Pad to ensure correct alignment. Most people get it on their first try!
Plugless™ Level 2 EV Charging System (3.3kW)

System Features

✓ SAE Level II EVSE (electric vehicle supply equipment)

✓ Maximum 3.3kW output recommended 30A 240V breaker on dedicated circuit

✓ Designed for outdoor and indoor applications in both the residential and commercial charging sectors

✓ Manufactured in the U.S. using recycled materials when possible

✓ Industry-leading, durable design and intuitive user interface

✓ Includes tamper resistant hardware and protected entry

✓ Vehicle maintains its ability to plug-in to recharge if necessary

✓ Charges as fast as a conventional level 2 plug-in charger

✓ Maintains all vehicle telematics

✓ Requires no vehicle alterations
### Plugless™ Level 2 EV Charging System (3.3kW)

#### Technical Specifications

<table>
<thead>
<tr>
<th>Specification</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td>Charging Power Output</td>
<td>3.3 kW continuous</td>
</tr>
<tr>
<td>Charging Input Voltage</td>
<td>208 – 240 VAC</td>
</tr>
<tr>
<td>Input Power Connections</td>
<td>Line 1, Line 2, and Earth connection</td>
</tr>
<tr>
<td>Recommended Service Panel Breaker</td>
<td>30A, 2P, breaker on dedicated circuit rated for continuous duty</td>
</tr>
<tr>
<td>Parking Pad Maximum Wheel Load</td>
<td>Parking Pad Drive Over 1500 lbs (680 kg)</td>
</tr>
<tr>
<td>Nominal Gap</td>
<td>4&quot; (10 cm)</td>
</tr>
<tr>
<td>Ground Clearance</td>
<td>7&quot; (17.8 cm)</td>
</tr>
<tr>
<td>Vehicle Interface</td>
<td>J1772 EVSE emulation, interlocked to prevent the user attempting to charge the vehicle both inductively and conductively at the same time</td>
</tr>
<tr>
<td>Foreign Object Detection</td>
<td>Automatic detection and charging lockout of any ferrous or metallic materials on or near Parking Pad</td>
</tr>
<tr>
<td>Vehicle Guidance</td>
<td>Automatic X and Y alignment offset detection and user indication</td>
</tr>
<tr>
<td>Manufacturing</td>
<td>Manufactured in the USA using recycled materials when possible</td>
</tr>
<tr>
<td>Standards</td>
<td>NEC 625 (NFPA 70), SAE J1772, UL2594, UL2231, CSA170.1</td>
</tr>
<tr>
<td>Enclosure Ratings</td>
<td>NEMA 3R (Control Panel); NEMA 4 (Parking Pad)</td>
</tr>
<tr>
<td>Operating Temperature</td>
<td>-0°F to 122°F (-18°C to 50°C)</td>
</tr>
<tr>
<td>Approximate Weight</td>
<td>35 lbs (16 kg) excluding pedestal</td>
</tr>

Plugless™ Level 2 EV Charging System (3.3kW)
System Component

Dimensions: 2.5" (63.5 mm) × 22" (559 mm) × 18.5" (470 mm) (H×W×D)

PARKING PAD
Houses the transmitting portion of the system and is installed on the garage floor or parking space
Plugless™ Level 2 EV Charging System (3.3kW)

System Component

CONTROL PANEL

Supplies power to the Parking Pad and provides alignment guidance and charging status.

Dimensions: 19.25" (490 mm) × 9.75" (239 mm) × 5" (127 mm) (H×W×D)
Plugless™ Level 2 EV Charging System (3.3kW)
System Component

Dimensions (with Control Panel): 58.5" (1,486 mm) × 12" (305 mm) × 16" (406 mm) (H×W×D)

PEDESTAL MOUNT (OPTIONAL)
Available if a wall is not present for mounting the Control Panel
